HOB-331 SERIES

Open Enclosure, Vandal Resistant, Rugged Telephones Built to Last

The CEECO HOB Series open enclosure, weather resistant telephones are specifically designed for high vandalism areas subject to fraud and abuse. The telephone housing is a powder coated heavy duty steel or a stainless steel finish with a high grade stainless steel panel to eliminate rust and corrosion as well as provide an attractive finish. The telephone is equipped with tamper resistant hardware to protect the phone from vandalism and theft as well as over-voltage protection to help guard against surging that might be generated by various conditions and weather.
