Our SSP 311/511 Series flush mount panel phones are designed for durability & high usage for both public and courtesy reasons. They are ideal for providing the reliable communications student and staff need especially in areas where cellular phones are rendered inoperable. These phones are constructed of heavy gauge stainless steel and can be mounted in our (WPP) weatherproof or (HOB) weather resistant open enclosure housings. We have many options and features to meet your exact requirements.	Our SSP-361/561 Series are vandal resistant, stainless steel, flush mount or surface mount Telephones. Available in handset or handsfree speaker phones which are equipped with an instruction window (except SSP-561-D or X), Offered with keypad, autodial, ring-down, call restriction and speed dial, or combination units. The 361-561 telephones come with the rough-in mounting box or optional stainless steel wall/surface mounting box. This unit is ideal for courtesy and critical communication.	Our SSW-321/521 Series is our most popular model. Designed for your most abusive environments. Constructed of heavy gauge stainless steel with a mechanical or sealed magnetic hookswitch, die casted metal keypad, and armored cord handsets with internal steel lanyard and swivel for added strength or weatherproof and puncture proof speaker make these phones ideal for resident halls and other high traffic areas where durability and reliability are necessary for your most needed situations .	Our HOB331-531 weather resistant models provide reliable communication and are suitable for either indoor or outdoor locations with limited protection. Optional features include ring indicator light, pushbutton volume control with background noise reduction, ADA (American Disabilities Act) features, and more. Stainless steel panels are interchangeable between the HOB and WPP housings and are available in handset or speakerphone versions with many functions and features to suit your needs.	Our WPP-331/531 weather-proof phones are designed for outside applications that are directly effected by the weather and other challenging environments that require a rugged, lockable telephone. The WPP housing is constructed of a cast aluminum housing with a heavy gauge stainless steel panel telephone installed with tamper resistant hardware to deter vandalism and theft. Our Housings are available in Red, Black, Yellow or Grey with custom wording as well as Strobe light, steady on blue light & ADA features.
