

# HOB-331-X TELEPHONE

**Open Enclosure, Vandal Resistant, Rugged Telephones Built to Last**

CEECO model HOB-331-X is an open enclosure, weather resistant “Ringdown” telephone that is designed for both indoor and outdoor areas that have limited protection from the elements. The telephone housing is 14 gauge powder coated steel or stainless steel with a high grade 16 gauge stainless steel panel to eliminate rust and corrosion and to provide an attractive finish. The telephone is equipped with “ring-down” operation or other direct connection via a Telco, PBX or other such line, and equipped with marine quality mechanical or optional magnetic hookswitch, 32” hearing aid compatible armored cord handset, and tamper resistant hardware for added durability. The internal circuitry provides over-voltage protection to help guard against surging that might be generated by various conditions and weather which provides dependable communication built to last!
