## HOSPITAL AND MENTAL HEALTH TELEPHONE SOLUTIONS

SSP-311-F-M-ACH18-89

**SSW-321-D-M-ACH12**

Our rugged compact wall and panel phones offer the most durability and reliability to maintain excellent communication anytime for hospital patients or mental health facilities.

**SSC-301-F**

Payphone replacement and customer courtesy phones that are industrial strength and easily recognizable.

Hospitals require long-lasting, reliable telephones for emergency and public communication. CEECO not only understands this, but strives to exceed these expectations. Our telephones offer exceptional quality and have proven to withstand areas of high usage, abuse, and vandalism.

Beyond the initial purchase, we recognize the need for continued cost-savings and convenience, and CEECO provides many benefits to ensure this for our customers.

- ◆ Easy Installation
- ◆ Fast delivery
- ◆ Shorter handset lengths (10, 12, or 18")
- ◆ Sealed magnetic hookswitch option for added durability
- ◆ Tamper and vandal resistant installation hardware
- ◆ Readily available replacement parts
- ◆ Repair services for the life of the product
- ◆ Life time complimentary technical support
- ◆ Customization

PAYPHONE SIZE PUBLIC TELEPHONES	EMERGENCY & COURTESY PANEL PHONES	MINI WALL PATIENT TELEPHONES	ENTRY & COURTESY WEATHER RESISTANT	VISIBLE EMERGENCY WEATHERPROOF PHONE
				
<p>CEECO's SSC-301/501 series imposing design &amp; impressive durability helps to deter vandalism, while making them easy to locate. The high grade stainless steel finish makes them aesthetically pleasing, yet effortless to maintain in a hospital environment. Their tamper resistant chrome plated instruction window makes it accommodating for customers to add specific instructions for patients, visitors or staff. Available in many options and features to meet your requirements.</p>	<p>Our versatile SSP-361/561 and compact SSP-311/511 panels are constructed with vandal resistant high grade stainless steel for durability and easy maintenance making them ideal for hospital areas that are subject to high use and abuse. These phones are available in flush or wall mount with many options and features, and are excellent for courtesy, patient, or doctor use in clean or operation rooms, waiting rooms or mental health locations.</p>	<p>Our SSW-321/521 mini wall phones are designed for your most abusive environments. Constructed of heavy gauge stainless steel, our handset models come equipped with durable mechanical or sealed magnetic hookswitch, metal keypad, and armored cord handsets with internal steel lanyard and swivel for added strength. Our speakerphones are equipped with puncture &amp; weatherproof speakers. The SSW series provides rugged and reliable communications for waiting rooms, day rooms, and high traffic areas.</p>	<p>Our HOB-331/531 weather resistant models provide reliable communication for indoor, as well as outdoor locations with limited protection. Optional features include ring indicator light, strobe light, ADA features, and more. Speakerphone ADA features include call progress LED light &amp; braille EMER plate. Our SSP-311/511 stainless steel panels are interchangeable between the HOB and WPP housings and are available in handset or speakerphone versions with many functions and features to accommodate your needs.</p>	<p>Our WPP-331/531 series are designed for outside applications that are directly affected by adverse weather and other challenging environments that require a rugged, lockable telephone. The heavy gauge stainless steel panel installed in a cast aluminum housing with tamper resistant hardware to deter vandalism and theft. Available in Red, Black, Yellow or Grey with TELEPHONE or EMERGENCY on housing door. Also available is optional strobe or steady on blue light, ring indicator light, &amp; ADA features.</p>
