

# SSP-311-D TELEPHONE

## Vandal Resistant, Stainless Steel Panel Telephone Built to Last

CEEEO industrial grade telephones are designed to withstand high usage and abuse. The SSP-311-D telephone will automatically dial one telephone number from 1-11 digits when the handset is lifted off hook and will also allow incoming calls. Constructed of 16 gauge brushed stainless steel and equipped with a 32" armored cord handset, ATD-11 autodial board, and marine quality chrome mechanical hookswitch, the SSP-311-D offers communication you can rely on. CEEEO model SSP-311-D telephone fits in both the WPP (weatherproof) and HOB (open enclosure) housing or can be flush mounted into a customer's designed mounting.

Made in the USA 

### SPECIFICATIONS

INPUT POWER:	C.O. Line Powered
LOOP CURRENT:	23ma min to 80ma max
IMPEDANCE:	600 ohms
HEARING AID COMPATIBLE:	Meets EIA standards
ENVIRONMENTAL:	Temperature: -30°C (-22°F) to 60°C (140°F) Humidity 0%-90% non-condensating
RINGER EQUIVALENCY:	0.4A
FACEPLATE:	Brushed 16 ga. Stainless Steel
PANEL:	11 1/4"H x 7 1/16" W x 2 7/8" D (Handset on Hook)
WEIGHT:	6 lbs.
FCC REGISTRATION:	BW88T7-13716-TE-T
UL LISTED NO.:	60F5
TYPE JACK:	RJ11C

### ACCESSORIES:

301-064	Security Tool (required for installation)

PRODUCT MANUALS WITH FULL FEATURES AND FUNCTIONS AVAILABLE UPON REQUEST

				
<b>SSP-311-D</b>	<b>SSP-311-D-M-IVC</b>	<b>SSP-311-D-ACHR-ADA</b>	<b>SSP-313-DD</b>	<b>SSP-HOUSINGS</b>
Our standard stainless steel vandal resistant panel telephone with automatic dialer and 32" armored cord handset is an autodial phone that can be programmed from 1-11 digits. These phones are specifically designed for areas subject to high use and abuse.	The SSP-311-D-M-IVC-model is equipped with the sealed magnetic hookswitch (M) & internal volume control (IVC) with background noise reduction button on the face of the stainless steel panel. This is commonly used in areas that are noisy and busy with ample traffic and use.	The SSP-311-D-ACHR-ADA model with a red handset (ACHR) and braille EMER emergency plate (ADA) is commonly used in public areas such as parks, schools, pools or any other location where the need for durable, emergency and/or courtesy phones are required.	The SSP-311-DD model is equipped with MRCK2 smart card, which provides 2-push button auto-dialing and can be programmed to block or allow incoming calls. It is commonly used in areas that require designated or restricted calls to specific locations.	The SSP Housings can either be a wall mount, weatherproof or weather resistant open enclosure. Our weatherproof housing in cast aluminum and custom lettering on door is great for areas subject to outdoor environment. Our weather resistant open enclosure housing is great for partial outdoors and public use.
