

SSP-571(0) SERIES

Stainless Steel, Vandal Resistant, Rugged Speakerphones Built to Last

The CEECO Model SSP-571 Series stainless steel, vandal resistant, panel speakerphones are so versatile for such a compact unit. These attractive yet discreet designed speakerphones offer clear, reliable communication for unique locations such as Elevators and other customer service locations that require emergency notification. The SSP-571 Series are equipped with press to start, press to stop call button for the initiation and termination of phone calls and an LED visual call process indication light with optional smart features to include Auto Answer, Voice Announcement, and Remote Programming as well as optional ADA features required for emergency phones. They can be flush mounted and, for easy installation, mounted in our attractive optional mounting box and frame. Because of their durable and quality design, the SSP-571 series offers telephone solutions built to last.
