

WPP-333 SMART SERIES

Weatherproof, Vandal Resistant, Rugged Telephones Built to Last

The WPP-333 Smart Series Vandal Resistant Weatherproof Telephone enclosed in a rugged cast aluminum housing, is built to withstand adverse weather conditions, as well as indoor environments that need that added protection. These phones go beyond standard telephone functionality by providing you with smart features to fit all of your courtesy, security, emergency, and public phone applications. Each unit contains a marine quality chrome keypad and hookswitch, 18" armored cord handset with internal steel lanyard and swivel for added strength, tamper resistant screws, and mounting back plate for easy installation. Read about specific smart features like Call restrictions, speed-dial pre-programmed numbers, block or allow incoming calls, etc. on the next page to see which model fits your needs.

Made in the USA

WPP-333 SMART SERIES

PRODUCT MANUALS WITH FULL FEATURES AND FUNCTIONS AVAILABLE UPON REQUEST

WPP-333-E (ADT 1.03)

WPP-333-F-M-R (CAC 6.00)

WPP-333-F-M-IVC-Y (SPD 2.01)

Microprocessor based telephone equipped with **ADT 1.03 FIRMWARE**. Keypad with two rows of six buttons, each programmed to dial a single number up to 23 digits in length. Label has an area provided to list call destinations next to relevant buttons. The transmitter stays muted (off) during periods of dial tone to deter the use of hand held dialers and hookswitch dialing. Attempts to make fraudulent calls are detected and blocked, causing the microprocessor to reset. Incoming calls may be allowed or blocked.

Microprocessor based coinless telephone equipped with **CAC 6.00 FIRMWARE** is designed to withstand abuse and fraudulent call attempts while implementing call control. Microphone is muted to guard against fraud as well as select options for tone (DTMF) or pulse dialing. Call restriction features include: allowing or blocking incoming calls, speed dialing up to 40 pre-programmed numbers, automatically dialing one or two numbers when the handset is lifted (PBX or access number), and call blocking, for example, long distance calling and/or limiting call time duration.

Microprocessor based telephone equipped with **SPD 2.01 FIRMWARE** is a speed dial telephone only. Designed to speed dial ninety-three (93) speed dial numbers from one (1) to eleven (11) digits in length. Telephone will not dial any other number except for the preprogrammed speed dial numbers. Incoming calls are not allowed and will be blocked. Speed dial numbers are programmed via the keypad and additional speed dial numbers may be added, deleted, or changed at any time.
