

WPP-531 Blue Light Phones

Weatherproof, Handsfree, Vandal Resistant, Rugged Speakerphones Built to Last

CEECO WPP-531 ST Series vandal resistant, blue light, weatherproof telephones are available with dial, autodial, ring-down, or chrome tone dial keypad and push button automatic dialer that offers dependable, clear communication. The blue light is available in a steady burning locating type beacon or a flashing strobe light alert type configuration. The ADA feature provides a LED that changes color to give the caller a visual indication of the call progress, Braille Emergency plate and red push button. The speakerphone has a press to start/stop button for initiation or termination of phone calls, but will reset itself when the called party hangs up to prevent the phone from being left in the off-hook condition. The speakerphone provides better emergency communication, since the user is not restricted to communicate via handset and the called party can hear conversation in the local vicinity. The unit is built with a heavy duty cast aluminum housing and a high grade 16 gauge stainless steel panel to eliminate rust and corrosion. The internal circuitry provides exceptional audio balancing and overall sound quality, as well as over-voltage protection to help guard against surging generated by various conditions including storms. This unit is an excellent choice for areas that need dependable emergency communication and require protection from the weather, abuse, or high volume use.

WARRANTY POLICY

GENERAL

CEEEO guarantees its products to be free from defects in material and workmanship for a period of 365 days from the date of original purchase. CEEEO's obligation under this warranty is limited to repair or replacement of any part found to be defective by CEEEO.

UNDER NO CIRCUMSTANCES shall CEEEO be liable for loss, damage, cost of repair or consequential damages of any kind, which have been caused by neglect, abuse or improper operation of equipment.

CEEEO will repair or replace any unit during this period if found to be defective for reasons other than abuse and improper use or improper installation. It is the buyer's responsibility to return the defective unit to the factory. CEEEO will then repair or replace any defective parts and return them to the buyer free of charge. CEEEO supplies replacement parts and offers repair service for the life of the product.

REPAIR POLICY

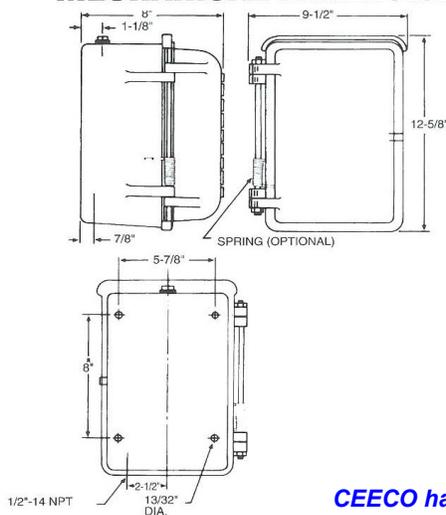

WARRANTY REPAIR

Any device returned requiring warranty service, repair or credit must be accompanied with a "Return Material Authorization" (RMA) Form. It must include: RMA Number, return shipping instructions, original purchase order number, serial number and special marking instructions. A tag with the trouble observed must be attached to the defective unit. This information must be inside the shipping container.

NON-WARRANTY REPAIR

CEEEO will repair equipment out of warranty for a set charge plus parts. The customer must pay the shipping costs both directions.

MECHANICAL DIMENSIONS

CEEEO has been providing telecom solutions since 1930. Our vandal resistant technology focuses on providing public communication solutions while reducing replacement and repair costs, lowering the customer's total cost of ownership. CEEEO also offers custom design and branding to your specifications.

Our commitment to providing expert service and support extends beyond the warranty of our product. We offer service for the life of the product! CEEEO is devoted to giving you the quality and service you deserve.
