Background Noise Elimination**

PBX Access Dialing

Requires 301-037 Security Tool

1 Year Warranty

The CEECO model SSW-341-Fr1 is a Mini Wall Telephone equipped with a metal button alpha-numeric keypad, tone dialer, side-mounted, receiver-operated, magnetic hookswitch with chrome plated handset cradle, internal volume control and noise reduction circuit. It is designed for special applications where a telephone must be sturdy and attractive, and also consume less than 4" in depth from the mounting surface. The internal volume control is operated by a push button mounted on the face of the housing. The button bears a universal volume control symbol on its face. The built in noise reduction circuit helps reduce background noise. Rather than the standard mechanical hookswitch, these phones are equipped with a receiver-operated magnetic hookswitch, which translates to no moving parts and less chance of intrusion. The slim 3.5" of depth and the side-mounted handset make this unit ideal for hallways and corridors where the spatial considerations and inadvertent off-hook conditions are a concern.

CEECO has been providing telecom solutions since 1930. Our vandal resistant technology focuses on providing public communication solutions while reducing replacement and repair costs, lowering the customer's total cost of ownership. CEECO also offers custom design and branding to your specifications.

Our commitment to providing expert service and support extends beyond the warranty of our product. CEECO is devoted to giving you the quality and service you deserve.

WARRANTY POLICY

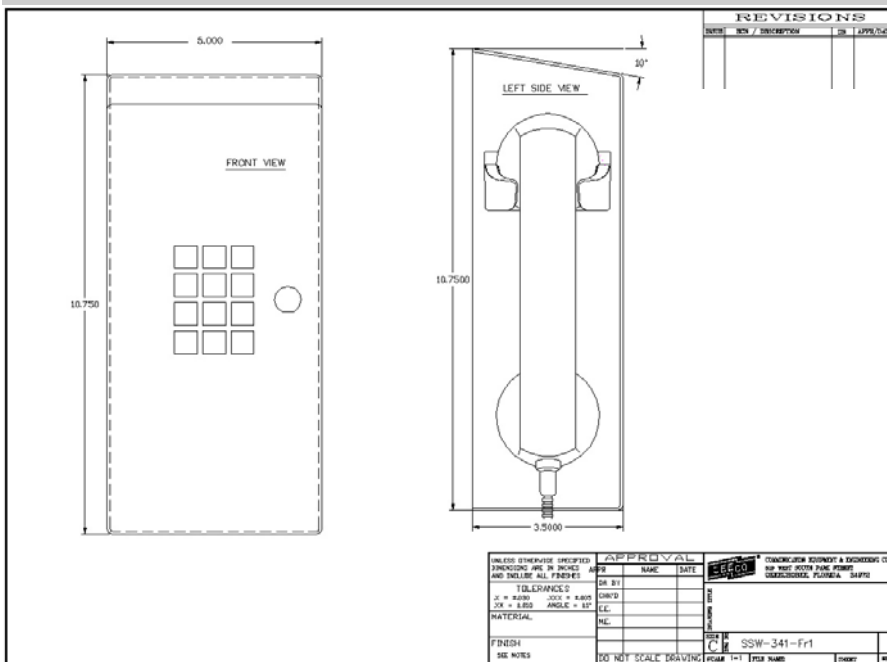

GENERAL

CEECO guarantees its products to be free from defects in material and workmanship for a period of 365 days from the date of original purchase. CEECO's obligation under this warranty is limited to repair or replacement of any part found to be defective by CEECO.

UNDER NO CIRCUMSTANCES shall CEECO be liable for loss, damage, cost of repair or consequential damages of any kind, which have been caused by neglect, abuse or improper operation of equipment.

CEECO will repair or replace any unit during this period if found to be defective for reasons other than abuse and improper use or improper installation. It is the buyer's responsibility to return the defective unit to the factory. CEECO will then repair or replace any defective parts and return them to the buyer free of charge.

MECHANICAL DIMENSIONS

REPAIR POLICY

WARRANTY REPAIR

Any device returned requiring warranty service, repair or credit must be accompanied with a "Return Material Authorization" (RMA) Form. It must include: RMA Number, return shipping instructions, original purchase order number, serial number and special marking instructions. A tag with the trouble observed must be attached to the defective unit. This information must be inside the shipping container.

NON-WARRANTY REPAIR

CEECO will repair equipment out of warranty for a set charge plus parts. The customer must pay the shipping costs both directions.
