

# SSP-311-F TELEPHONE

## Vandal Resistant, Stainless Steel Panel Telephone Built to Last

CEEEO industrial grade telephone panels are designed to withstand high usage and abuse. The SSP-311-F telephone is a panel telephone with a marine quality chrome tone dial for standard dialing operation. Constructed of high quality 16 gauge brushed stainless steel and equipped with a 32" armored cord handset and mechanical or magnetic hookswitch, the SSP-311-F offers communication you can rely on. These panels fit in both the WPP (weatherproof) and HOB (open enclosure) housing or can be flush mounted into a customer's designed mounting.

Our standard stainless steel vandal resistant panels, with chrome tone keypad and 32" armored cord handset with steel lanyard. Designed to mount in our WPP or HOB housings or may be flush mounted.	The SSP-311-F-M-IVC-model is equipped with the sealed magnetic hookswitch (M) & internal volume control (IVC) with background noise reduction button on the face of the stainless steel panel. This is commonly used in areas that are noisy and busy with ample traffic and use.	The SSP-311-F-ACHR-BR model with a red handset (ACHR) and braille EMER emergency plate is commonly used in public areas such as parks, schools, government buildings, or any other location where the need for durable, emergency and/or courtesy phones are required.	The SSP-311-F-M-RIL model is equipped with the sealed magnetic hookswitch (M) with no moving parts and ring indicator light (RIL). Popular in noisy and busy areas where it is necessary to see the phone ringing. Commonly found in dormitory hallways, distribution centers, and manufacturing facilities.	Our SSP panels are available mounted in our (WPP) weatherproof or (HOB) weather resistant open enclosure. Our weatherproof and weather resistant phones offer reliable communication for all your outdoor and hostile indoor environments. See models: WPP-331-F and HOB-331-F
