

MINI DIRECT CONNECT & AUTODIAL SPEAKERPHONE PANELS

550 STAINLESS STEEL PANEL TELEPHONES

The CEECO Model SSP-550 Series stainless steel, vandal resistant, mini panel speakerphones are designed for use in areas subject to space restricted locations that require emergency or courtesy communications. These attractive yet discreet designed speakerphones offer clear, reliable handsfree operation for unique locations such as elevators, hallways, stairwells, drive thru's, banks, gas stations, or prisons. The SSP-550 Series are equipped with press to start, press to stop call button for the initiation and termination of phone calls and an LED visual call process indication light with a red or black call button. The SSP-550 Series are flush mounted or can be mounted in customer designed enclosure. Due to their durable and quality design, these mini panel speakerphones offer telephone solutions built to last.
