

SSP-511-DD SPECIFICATIONS

HANDSFREE SPEAKERPHONE PANEL WITH KEYPAD & TWO AUTODIAL PUSH BUTTON

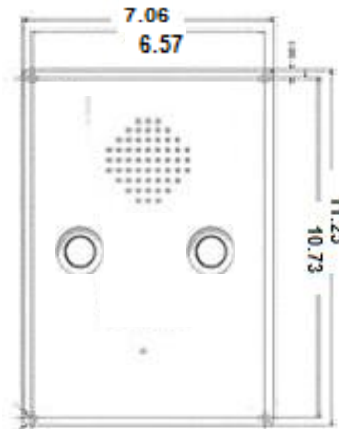

Standard Analog Power, but also available in VoIP versions

Durable stainless steel flush mount handsfree speakerphone with two (2) automatic dialing push buttons. Each button is preprogrammed to dial a number from 1-11 digits when the button is pushed and red/green LED light provides visual indication of call progress. Capable of blocking or allowing incoming calls and provides call duration time-out at 1, 3, or 5 minutes or no time-out. Telephone can not be left off-hook, as it detects when called party hangs up and resets itself. Equipped with weatherproof, puncture resistant speaker and microphone. Telephone can be flush mounted or installed in our 331-005 weatherproof or 331-HOB weather resistant housing.
