

WPP-331-D-ST SPECIFICATIONS

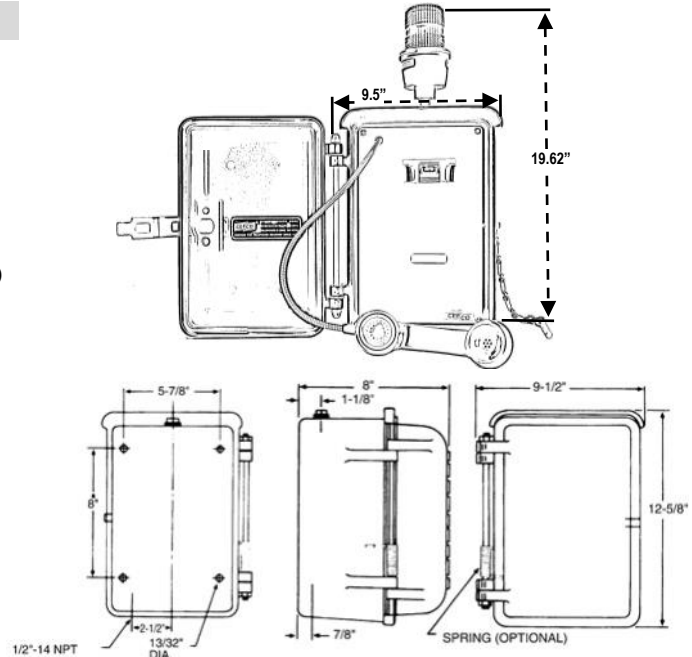

HANDSET TELEPHONE PANEL WITH AUTODIAL & BLUE STROBE LIGHT IN A WEATHERPROOF HOUSING

Highly visible blue light telephone for both indoor and outdoor locations. Constructed with a stainless steel panel phone and a cast aluminum weatherproof black housing with TELEPHONE on door with pin latch, wall or pole mount, and flashing strobe light that will activate when user makes a call. Designed to automatically dial a preprogrammed number from 1-11 digits when the handset is lifted off-hook. Equipped with marine quality chrome mechanical hookswitch, ID window, 18" hearing aid compatible armored cord handset or optional (-CCH5) 5 foot industrial strength coiled cord handset, and tamper resistant security screws. Blue light option is also available in a steady burning light (-SB) for location identification or a flashing blue light that activates when an incoming call is received (-RST). Waterproof enclosures are offered in black, (-R) red, (-Y) Yellow, or (-G) Gray with TELEPHONE or EMERGENCY on door.
