## HANDSFREE SPEAKERPHONE WITH PUSH-BUTTON AUTODIAL & RING INDICATOR BLUE STROBE LIGHT IN A WEATHERPROOF HOUSING

Distinctly noticeable blue light emergency handsfree speakerphone for both indoor and outdoor locations. Constructed with a stainless steel panel phone and a cast aluminum weatherproof black housing with TELEPHONE on door with pin latch, wall or pole mount, and flashing strobe light that will activate when phone rings. Designed with push button for ring-down operation and red/green LED light provides visual indication of call progress. Telephone can be programmed to time out calls from 1-9 minutes or no time out and block or allow incoming calls. Telephone can not be left off-hook, as it detects when called party hangs up and resets itself. Phone relies on external equipment to control calling. Equipped with a weatherproof, puncture resistant speaker and microphone and tamper resistant security screws.ADA (American Disability Act) features available. Blue light option is available in a steady burning light (-SB) for location identification or a flashing blue light that activates when a call is initiated from the phone (-ST). Waterproof enclosures are offered in black, (-R) red, (-Y) Yellow, or (-G) Gray with TELEPHONE or EMERGENCY on door.
